**T-Shaped Developer** with focus on **Frontend** and **UX**. An application builder that also do **backend**, **architecture**, **infrastructure** & **database**.

## SKILLS

**Javascript** is my primary language. ES6 and Typescript came to fix many things.

With a db, Next and Node we can build fast, reliable, front and backend with a great dev and user experience.

NodeJS  NextJS  React

Express  HTML  CSS

**SQL**

Postgres  MYSQL  Mongo

Prisma  Sequelize

**AWS**

S3  RDS  Cloudfront

SES  EC2

## WORK

Present
### Copa design
**Full Stack Developer**

Building full stack applications for project management, SAAS and DAAS

2 years
### LCRE Cosmetics
**Full Stack Developer**

Building NextJS ecommerce, backend applications and API integrations for sorefronts.

# PROJECT MANAGEMENT TOOL FOR DESIGNERS

**PROJECTS.COPA.DESIGN**

## ABOUT

Frontend in **React+NextJS,** using Next's **API routes** and **Prisma** for db query.

I used a **PostgreRDS** instance of AWS for data, **S3** for assets and **Cloudfront** as CDN.

Frontend, static assets and **serveless functions** are on Vercel.

I used **TailwindCSS** to style this project.

## E-COMMERCE INTEGRATION & ESG DASHBOARD

COCLIMA.COM

### ABOUT

Frontend in **React+NextJS,** using Next's **API routes** and **Prisma** for db query.

I make a full **API integration** between CoClima and Nuvemshop (Shopify like platform that leads this segment in Latin America)

This was deployed to a **Linux VPS**

I used **TailwindCSS** to style this project.

# TORUS

# HEADLESS ECOMMERCE

USETORUS.COM.BR

## ABOUT

Frontend in **React+NextJS,** as a Headless ecommerce we used Yampi as backend.

I make a full **API integration** between Torus and RD Station (Hubspot like platform that leads this segment in Latin America)

Frontend, static assets and serveless functions are on Vercel.

I used **BootstrapCSS** to style this project.

Performance é se sentir bem em qualquer lugar, a qualquer hora.
